EXPERIENCE

Full Stack PHP/Laravel Developer

Freelance Consultant

Jul 2024 - Present

- Developing and maintaining full-stack web applications using PHP and Laravel.
- Providing freelance consulting services for web development, database management, and API integrations.
- Building scalable and optimized backend solutions with Laravel and MySQL.
- Implementing front-end features using JavaScript, jQuery, and modern UI frameworks.
- Handling end-to-end project development, including requirement gathering, coding, testing, and deployment.
- Collaborating with clients to deliver customized software solutions tailored to business needs.

Full Stack PHP/Laravel Developer

CaliberFocus Business Solutions Pvt Ltd

May 2023 - Jun 2024 (Chennai, Tamil Nadu)
Worked on a groundbreaking medical web application, enabling healthcare providers to improve patient engagement and streamline internal processes. Developed a comprehensive internal tool for managing patient data, enhancing the efficiency and accuracy of medical record-keeping.

- Lead the development of a customer management portal, utilizing Laravel for backend logic and jQuery for dynamic frontend blade pages.
- Implemented RESTful APIs to facilitate seamless communication between the frontend and backend, resulting in a 30% improvement in application performance.
- Collaborated with cross-functional teams to analyze and refine project requirements, ensuring alignment with business goals.
- Conducted code reviews and implemented best practices, resulting in a 20% reduction in bugs and improved overall code quality.

Laravel Developer

UITOUX Solutions Pvt Ltd

Jan 2021 - Apr 2023 (Coimbatore, Tamil Nadu)
Worked on a revolutionary ecommerce startup, enabling eCommerce merchants to build long-lasting customer relationships.

- Developed a secure authentication system that increased user privacy and data security.
- Developed a secure and efficient PHP web application that enabled users to process orders in real-time.
- Refactored existing codebase to improve code readability and maintainability.
- Utilized object-oriented programming to create reusable components that improved development speed.

STRENGTHS

Problem Solving

Tasked with creating and optimizing applications using MySQL server, PHP, Laravel, and jQuery to address complex problems and improve user experience.

Technical Proficiency

Conducted thorough analysis and design of software solutions to meet business requirements. Developed and implemented server-side programs, ensuring robust and efficient performance.

Collaborative Development

Collaborated with team members on both admin and client-side development. Actively participated in all phases of the development lifecycle, from initial planning to final deployment.
